

AESCAPE FOR PRIVATE CLUBS

Recovery, reserved for your members.

Precision bodywork from a fully autonomous table, inside your club. Members book on their own schedule, stay fully clothed, and walk off the course onto the table — no appointments, no oils, no added staff required.

THE OPPORTUNITY

Members expect the club to have what's next, first.

THE EXCLUSIVITY BAR

A club competes on what members can't get anywhere else. The amenity set is where that race is run — and recovery is its newest front.

THE CONVENIENCE GAP

Great recovery exists — behind appointment books, drive time, and someone else's schedule. Members want it inside club life, on their own clock.

THE POST-ROUND MOMENT

The best window for bodywork is right after play — and almost no club captures it. Aescape puts the table steps from the course.

An amenity members can't get at home — on a schedule only they control.

THE PRODUCT

Precision bodywork, personalized every session, consistent for every member.

Body mapping

Every session starts with a real-time map of the body — targeted work from the first minute.

Real-time adaptation

Members tune pressure, focus, music, and visuals throughout. Theirs, every time.

Consistency at scale

Private and self-guided — no shower needed. Members are back to the grill, the range, or the road in minutes.

Results that build

Outcomes improve with regular use and preferences carry over — a reason the routine sticks.

Built by you, in the moment.

Members asked for more ways to personalize their recovery — now they can. Create Your Aescape lets a member build a session around exactly how they feel that day: a few quick questions, and Aescape generates a custom session in seconds, every stroke designed by expert Licensed Massage Therapists.

01 · SET THE GOAL

Relaxation, tension relief, or athletic recovery.

02 · TARGET THE BODY

Choose focus regions and the areas that need it most.

03 · START IN SECONDS

A custom session, built and ready to begin.

92%

of sessions produced measurable improvement toward the member's stated goal

+45%

average movement toward goal, per session

4.6/5

satisfaction across all goal types

Tension relief · 59% of sessions
91% improved · +43% toward goal

Athletic recovery · 29% of sessions
92% improved · +40% toward goal

Relaxation · 12% of sessions
96% improved · +67% toward goal

Measured against each member's self-reported goal at session start, across relaxation, tension-relief, and athletic-recovery goals. Aescape member outcome data.

Protocols for the way your members play.

Aescape sessions can be recommended by sport — targeted protocols for the body regions a game actually loads. Golf, the anchor of club life, is the example: members finish a round, book from the app, and are on the table in minutes.

When & how often

Pre-round activationThe day before the round

Post-round recoveryWithin 2 hours of play

Weekly maintenanceRest day or practice day

Rehab2x a week for 4–6 weeks

The post-round pairing — targeting the low back and glutes

Lower Back & Glutes Focus

30 MIN

Target lower back pressure and hip tightness with deep compressions and lengthening strokes. Emerge feeling restored and stabilized.

Total Back & Glutes

60 MIN

Experience a full hour of long strokes and deep compressions to ease knots and soothe sore muscles in the hips, shoulders and back. Emerge feeling relaxed, de-stressed, and renewed.

IN YOUR CLUBHOUSE

Easy to deploy. Easy to run.

A standalone system that ships in 6–8 weeks, with white-glove delivery and installation in 1–2 days — no construction, no plumbing, no locker-room work.

FOOTPRINT

8 × 10' · a room or open space

POWER

120V · 4–5 amps · standard outlet

CONNECTIVITY

25 Mbps · ethernet or Wi-Fi

THE MEMBER MODEL

How members access it — your call.

Three ways clubs offer Aescape. Pick one, or blend them — and adjust as utilization comes in.

Included in dues

Recovery as part of membership — every member, every visit, part of what the club stands for.

Member rate

A subsidized member price, booked in the app — easy to start, easy to adjust.

À la carte

Session pricing the club sets — including guest access on the member's account.

Your team decides where it lives, how it's priced, and which programs it pairs with — golf, racquets, aquatics, training. Aescape services and updates the system either way.

Three layers. One partner-friendly commercial model.

Hardware delivers the experience. Platform keeps it performing. Network adds demand on top of your own.

HARDWARE

One-time. You own it.

A fully integrated recovery system, installed and supported. 3-year warranty with 2-year extension available, ~99% uptime, 2-day field SLA.

\$125,000

Delivery, white-glove install, training, apparel, and launch marketing assets included.

PLATFORM

Annual. Keeps it performing.

Software, remote monitoring, reporting, recovery content, and dedicated Partner Success.

SAVE \$10,000

\$10K annually per device

Bundle 5 years of Platform with your purchase and save 20%. 2-year commitment, then renews annually.

NETWORK

Opt-in. Pay for outcomes.

Discovery, booking, and incremental demand that fills the table, managed by Aescape.

COMING SOON

Pay for Performance

0% on your own demand · 7.5% your members and customers booked through the Aescape app · 15% returning · 30% on first-time Aescape users.
